

PHOTOCATALYST CONSTRUCTION

CERTIFICATE

2021.03.13

大東中央幼稚園

大阪府大東市赤井1丁目2-1

From sterilization to antibacterial
Photo catalyst "en coat"

Decomposes bacteria using
titanium dioxide, which is
harmless to the human body.

The effect is about one year.

Keep clean with natural power
without using chemicals.

Prove here that you have carried
out photocatalytic construction.
